## Members of Task Force

---

---

---

---

---

---

---

---

- Review of Future of Nursing Key Messages and Recommendations
- Created worksheet
  - For each recommendation, identified –
    - What has ABNS done?
    - What more should ABNS do?

## Action Worksheet

---

---

---

---

---

---

---

---

- Survey conducted in 2013.
- 15 organizations responded.
- What action had already been undertaken to address the IOM Future of Nursing Key Messages and associated Recommendations?
- What still needs to be done to implement the Key Messages and Recommendations?
- Results of survey presented Fall 2013 Assembly meeting.

### **Member Survey**

---

---

---

---

---

---

---

---

---

---

---

- Dr. Peter Buerhaus presented at our Fall 2013 Assembly meeting.
- He challenged us to provide evidence that nursing certification adds value.
- How do we measure the impact of certification on patients?

### **Effective Workforce Planning and Policy Making**

---

---

---

---

---

---

---

---

---

---

---

- Research Committee – focus on measuring certification.
- Fall 2015 WOW! Meeting on the value of certification - a facilitated meeting to inspire active member engagement to collectively address an issue or topic of interest.

### **ABNS Strategic Planning**

---

---

---

---

---

---

---

---

---

---

---

- Bonnie has reached out to ABMS President and CEO, Dr. Lois Margaret Nora, MD, JD, MBA to explore opportunities to share information and discuss issues; partner on research and issues relating to continuing competence; and focus on public's perception about certification, as well as public education about the value of certification.
- We will invite them to participate in future ABNS Assembly meetings.

## **ABNS Strategic Planning**

---

---

---

---

---

---

---

---

The theme of our Fall 2014 Assembly meeting will be the *Future of Nursing*. We will explore how the IOM recommendations are driving nursing certification and recertification initiatives. We will showcase what our members are already doing and foster discussion about what still needs to be done.

We will also develop a Position Paper that reflects our viewpoints regarding nursing certification and the *Future of Nursing* Key Messages.

The Task Force will forward additional recommendations to the ABNS Board and cease its activities, having completed its work. We anticipate the Board will continue to monitor the *Future of Nursing* work as part of its ongoing environmental scanning.
